一、查询

1. myemployees表结构:

```
五、经典面试题:
试问: select * from employees;和
select * from employees where commission_pct like'%%' and last_name like'%%';
select * from employees where commission_pct like'%%' or last_name like'%%' or employee_id like'%%';
结果是否一样? 并说明原因
不一样!
如果判断的字段有null值
```
